

## Sovereign Masonry Sterilising Wash

A concentrated blend of a Quaternary Ammonium Salt, degreasing agent and other additives in water.

**Product Code**  
**30806251**

### Description

Sovereign Masonry Sterilising Wash comprises of a concentrated blend of a Quaternary Ammonium Salt, a degreasing agent and other additives in water.

It will kill off active growths of moulds, lichen and algae. Sovereign Masonry Sterilising Wash is also a highly active against harmful bacteria such as E-coli, Salmonella and Streptococcus.

**Form Supplied:** Liquid concentrate

**Pack Sizes:** 5 Litres

**Colour Range:** Clear

**HSE Number:** 6360

**Contains:** Dimethyl didecyl ammonium chloride

### Properties

Can be used to remove lichen, mould and algae from brickwork, masonry, stone, asbestos roofs, tiles and other building materials. Also as a sterilising solution prior to application of protective coatings (e.g. a masonry paint).

For flood damage use Flood Sanitising Wash.

### Preparation

The 5L Sovereign Masonry Sterilising Wash concentrate should be diluted 1:4 parts clean water for use. Add the concentrate to the water and stir well.

# Sovereign Masonry Sterilising Wash

Technical  
Data Sheet **58**

## USAGE

For porous masonry first start by wetting down the area to be treated with water. Then, by brush, work well into the growths to be removed, or apply by low volume spray. Painted or non-porous surfaces do not require pre-wetting.

Vigorous growths of mould/algae should be left for 24 hours. Subsequent scrubbing with a stiff brush or spraying with a power washer should remove the growths.

Once the active growths have been removed a light coating of the sterilising wash will help to keep the mould and algae at bay. However it will not permanently prevent re-growth. Porous substrates can be treated with one of Sovereigns water repellents, which will then greatly slow down the rate of re-growth.

## LIMITATIONS

Where Dry Rot is to be treated, use Sovereign Sovaq FWS Solution.

## COVERAGE Depending upon substrate

Brush: 5-9 m<sup>2</sup>/L

Spray: 4-6 m<sup>2</sup>/L

**Storage:** Between 5°C - 25°C.

**Shelf Life:** 12 months unopened.

## HEALTH & SAFETY

- ! Contains: Didecyldimethylammonium chloride, Quaternary C12-14 alkyl methyl amine ethoxylate methyl chloride, Alcohols, C9-11, ethoxylated
- ! Irritating to eyes and skin. Keep out of reach of children.
- ! In case of contact with eyes rinse immediately with plenty of water and seek medical advice.
- ! After contact with skin wash immediately with plenty of soap and water.
- ! Wear suitable protective clothing, goggles and eye/face protection.
- ! In case of accident or if you feel unwell seek medical advice immediately (show label if possible).
